Tuning Helper Project Charter
February 21, 2025

Project Title: Tuner and Metronome iOS Application Development	
Project Start Date: February 25	**Projected Finish Date:** May 25

Budget Information: SDG Developers have set aside $5500 for the base project, and additional funds can be provided for continuing development. It is anticipated that most, if not all, of the project costs will be in-house labor.

Project Manager: Phil May'r, (972) 878-8548, pmayr@sdgdevelopers.com

Project Objectives: Implement tone generator, metronome, and chromatic tuner functionality, provide interface localization for several major language groups, and release production version within three months.

Success Criteria: The application functionality must be implemented with a high level of quality by the projected finish date.

Approach: Tools will be developed one at a time unto a high degree of functionality. The programmer and designer will collaborate and coordinate their work so as to ensure seamless front-end and back-end integration. Localization and thorough testing of application to begin only after major features are implemented.

Roles and Responsibilities

Name and Signature	Role	Position	Contact Information
Phil May'r	Project Manager	Manager	pmayr@sdgdevelopers.com
Mike Goodman	Team Member	Programmer and Tester	mgoodman@sdgdevelopers.com
Rainy Waters	Team Member	UI/UX Designer and Tester	rwaters@sdgdevelopers.com
Hajera Fatima	Team Member	Translator and Tester	hfatima@sdgdevelopers.com

Comments: (Handwritten or typed comments from above stakeholders, if applicable)
"A draft of the application design must be completed within 2 weeks at the latest." - Rainy
"Testing will take place at least 2 weeks before launch date to ensure customer expectations/satisfaction." - Hajera

Team Members:
Hajera F.
Rainy W.
Mike G.
Phil M.
